Today's addition to our roster and catalog has a dub sound.

We have been following the Chilean artist LLLIT for quite some time—and rightly so!

LLLIT is a beacon in the darkness, blending profound electronic sounds with visceral and mental improvisation, creating sonic landscapes that transport you to unknown dimensions.

LLLIT is a multi-talented artist who thrives on collaboration and introducing new sounds to his own label. We resonated with such a character, leading us to follow his model by hosting an incredible roster of remixers ; Autotel from LLLIT's team and LAMEBOT, whom we first met on Mei's remix album Aqua Ghoul (Detroit Underground), are new additions to our roster. Dib (also known as Deeb) and Eden Grey, who both released with us in 2023, are also part of our team.

LLLIT excels in various fields including guitar playing, composing, producing, VJ-ing, and DJ-ing electronic music. From a young age, he was drawn to the world of Jazz music. His work is influenced by genres and rhythms such as Dub techno, Minimal Techno, Ambient, Experimental, Downtempo, among others.

We hope you'll enjoy this release as much as we do!
